

Joseph Herrera

Color:

Definition: Spectrum of light that bounces off an object. Also includes pigmentation, and consists of Hue, Value, and Intensity.

Examples:

The skyline is an example of Hue.

An Orange is an example of Intensity.

A patch of grass in an example of Value.

Plane:

Definition: A 3-Dimensional form/object that emphasizes on length and width but not thickness.

Examples:

A flat screen TV is an example of a plane

An iPad is an example of a plane

A CD is an example of a plane
